SOUTH WALES SAFETY CONSULTANCY

Health • Safety • Fire • Environmental

Disk/USB Reproduction Service

In addition to producing your Health & Safety manual, we also offer a CD or USB Card reproduction service to aid distribution of your policy to clients.

You are entitled to make as many copies of your new Safety Manual as you need. You may photocopy your hard copy, print a new full colour copy from your CD/USB Card, make a new CD using a CD writer, or download from the CD/USB onto your hard disks.

You may also purchase additional CDs or USB Cards directly from us. These may be useful for submission to “Blue Chip” clients or used as a marketing tool to present a positive, hi-tech and professional corporate image.

We offer this service in six different formats & styles with set prices to enable you to purchase the right product for your company.

Ejector Case

Introducing the unique new cd cases with a trigger. Simply squeeze the black trigger and the CD is ejected half way out of the clear case. Push it back in and the locking arms snap it securely in place. These are thinner and lighter than regular jewel cases and are made from virtually indestructible plastic.

£7.50 each

N.B. Purchase of your policy in the ejector case does not include additional disks such as the Generic Risk Assessments disk

Re-Enforced Postage Case

The Postage Case is a sturdy, strong, see through case designed to protect the disk from scratches and other damages. It offers a cheap efficient way to distribute your policy to clients..

£8.50 each

N.B. Purchase of your policy in the postage case does not include additional disks such as the Generic Risk Assessments disk

Metal Tin with Roundel

The Metal Tin with Roundel is a sturdy, strong, metal case designed to protect the disk from scratches and other damages. It comes with a plastic insert tray and a plastic roundel viewing window.

£12.50 each

N.B. Purchase of your policy in the postage case does not include additional disks such as the Generic Risk Assessments disk

Metal Tin with Baize effect insert

The Metal Tin with Baize effect insert is a sturdy, strong, metal case with a softened baize effect insert designed to protect the disk from scratches and other damages.

£14.00 each

N.B. Purchase of your policy in the postage case does not include additional disks such as the Generic Risk Assessments disk

USB Wallet Card

The USB Wallet card is a 1gb credit card sized USB drive. At only 3mm thick, it is designed to be carried conveniently within your wallet, laptop case etc.

It contains your full company health & safety policy documentation, including Generic Risk Assessments.

£10 each

The slim-line DVD case includes both disks from the policy and detailed instructions on the use of Adobe® Acrobat® Reader printed on the inside of the insert and located under the first disk
